

# SOUTH RIPLEY COMMUNITY SCHOOL CORPORATION

*"Home of the Raiders."*

May 25, 2020

Dear SR Families:

We are contacting you today to notify you of our Summer Meal Delivery Program that will be taking place during the month of June. This will look considerably different from our school year meal service. In our Summer Meal Program, we will not be delivering to each home address. We will be setting up locations throughout our school district at which students, parents or guardians will meet a bus during a specified window of time to pick up the meals. We will be choosing central points in convenient locations based on the number of families that sign up and where those families will be coming from to meet a bus.

There is one other significant difference from the school year program. In this summer program, although we will be providing breakfast and lunch for all five week days, we will only be delivering to the drop off locations two days per week. On Tuesdays, we will provide meals for two days, and on Thursdays we will provide meals for three days.

This Summer Meal Program is available at no charge for all interested South Ripley students and younger siblings in the home.

Families only need to sign up ONE TIME to be included in this program for the entire month of June. Please fill out the Google form available at this [LINK](#) to get signed up. In order to receive meals beginning on Tuesday, June 2, you need to complete this form by 4:00 p.m. on Friday, May 29.

We will keep the sign up form open after May 29 for anyone who wishes to join the program later in the month. If someone wishes to sign up, they need to complete the form by Friday of a given week in order to get started in the next week's service and continue throughout the month. Once again, please realize you only need to sign up ONE TIME to be included for the entire month.

On Monday each week the school will email or call all families who have signed up notifying you of the time and location for your meal pick up. You must arrive to pick up your meals during the specified time window so that we can keep the buses on schedule for all pick up times. No meals will be available for pick up at the school buildings.

We are pleased to be able to offer this program to our Raider families. If you have any questions, please call 812-689-5383, weekdays between 8:00 a.m. and 3:00 p.m. If no one is available to answer, please leave a message for the transportation department. Have a great summer!

Sincerely,

Robert D. Moorhead, Superintendent
